

Montana Bioscience Alliance hosted Healthcare Immersion Day for Local High School Students Seeking Futures in Health-Related Fields

The Montana BioScience Alliance and industry partners are proud to announce the successful 2024 *Immersion Day* at Rocky Vista University (4130 Rocky Vista Way, Billings, MT) and both local hospitals, Billings Clinic and Intermountain Health on February 23, 2024. The *Immersion Day* follows the *Careers in Healthcare Student Summit*, hosted at Montana State University Billings, on October 27, 2023.

These events are designed to showcase a wide range of healthcare occupations to high school students, encouraging them to explore all the career possibilities that await them. During the *Immersion Day*, students arrived at Rocky Vista University and spent the morning in the Medical Simulation Labs, observing Osteopathic Manipulation Medicine and Ultrasound Labs. After lunch at RVU, they dispersed to hospitals throughout Billings for an afternoon of job shadowing.
